THE IDEA

Give each creator one of two roles.

Design creators, chosen for the people in your room.

ROLE 01

Guest

They attend the day, meet the room and **film from the floor.** Your talks and practitioners show up in their reels and carousels.

The conference reaches their audience

ROLE 02

Speaker

They take a slot or join the AMA and **tell the honest version:** the rejected drafts and client rounds behind the polished post.

Their audience meets your stage
